- A local startup focused on IOT and Software Development. I've worked on several web development projects and flutter UI development.

EDUCATIONAL HISTORY

University of Colombo School of Computing

BSc(Hons) in Software Engineering | 3.54 GPA

Jan 2019 onwards

Mahinda College Galle

Secondary Education | 2008-2016

PROJECTS

Bayfront Hotel Management System | Group

PHP | HTML 5 | CSS 3 | Javascript

- Bayfront is an online hotel booking web application developed without any framework. We built our own framework kind of thing on top of a modified MVC pattern-based architecture.
- It provides login with user email verification, booking calendar, online payment integration with stripe API, accurate reporting, and attractive UI. | [Repository](#)

HRM+ | Group | Ongoing

Frontend - React | Tailwind CSS | Chakra UI | React Query

Backend - Node.js (fastify) | Prisma | Websockets (Socket.io)

Database - Postgresql

- HRM+ is an advanced human resource management system we develop as our 3rd-year group project. It uses a microservice architecture with WebSockets to provide a real-time experience for the end-user.
